

EXCEEDING THE EXPECTATION.....

شركة انابيا للمقاولات

ANABIA CONSTRUCTION

The Intelligent Way to Plan.

Anabia Construction Company was founded in 2012. Because of its outstanding work in the construction industry, it is regarded as one of the fastest growing construction companies in the kingdom. Anabia provides general contracting for medium and large-scale industrial as well as operation and services.

Its capabilities extend to civil, structural and mechanical works. The company employs competent manpower, experienced craftsman and expert engineers. Anabia provides skilled manpower support to their clients at different levels and disciplines.

Our organization provides optimal and customized solutions that are tailored to meet your needs.

We prioritize our attention solely on high-quality, safe, and cost-effective solutions, ensuring that our best services are implemented. We are proud to say that we meet the expectations of our clients, who are seeking consistent solutions.

VISION & MISSION

Preferred contractor to deliver the highest level of service, ensuring absolute client satisfaction by using the best quality standards, employing the skills of knowledgeable and experienced human resources, and benchmarking procedures for projects that must be completed on time.

Committed to providing our clients with construction product services while upholding the highest standards of safety, honesty, and creativity; we also stay mindful of the environment and work to develop our workforce and communities

QUALITY HEALTH SAFETY & ENVIRONMENT POLICY

ANABIA's long-term business success is dependent on our capacity to consistently enhance the quality of our services and products while safeguarding people and the environment. The emphasis must be on maintaining human health, operational safety, environmental preservation, quality improvement, and community goodwill. This commitment serves the best interests of our customers, employees and contractors, stockholders, and the communities where we live and work.

ANABIA requires all employees and contractors to actively commit to and be accountable for QHSE. Line management has a leading role in communicating, implementing, and enforcing compliance with QHSE policies and standards. We pledge to:

- Protect, and strive for improvement of, the health, safety, and security of our people at all times.
- Eliminate quality non-conformances and HSE accidents.
- Meet specified customer requirements and ensure continuous customer satisfaction.
- Set quality and HSE performance objectives, measure results, and assess and continually improve processes, services, and product quality with an effective management system.
- Plan to respond to and recover from any emergency, crisis, or business disruption.
- Minimise our impact on the environment through pollution prevention, reduction of natural resource consumption and emissions, and the reduction and recycling of waste.
- Apply our technical skills to all HSE aspects in the design and engineering of our services and products.
- Communicate openly with stakeholders and ensure an understanding of our QHSE policies, standards, programmes, and performance. Reward outstanding QHSE performance.
- Commitment to our Target Zero vision and the QHSE Management System will drive our high performance and high value, which in turn leads to improved cost, profitability, sustainability, and a culture committed to excellence.

Competence in carrying out every aspect of construction tasks up to project completion. Anabia has continuously delivered complex and challenging projects to the highest standards by investing in its people and equipment. Anabia expertise include, but not limited to:
